

# YEMEN EMERGENCY APPEAL REPORT

The following report reflects Global Ehsan Relief's response to Yemen crisis as of 2017, 2019 and 2020 in hopes to enlighten their burden. We distributed various type of aid e.g. emergency food parcels, hot meals, clean water supply, winter kits, hygiene kits and school materials.

In total, we have helped  
**16,362 people**  
from Sana'a, Aden &  
Taiz, Yemen.

Total amount disbursed  
**SGD 96,186.55**

**2017**

In May 2017, the project Emergency Food Aid Parcel and Ramadan Distribution for Disabled Project was implemented in Sana'a, Yemen. During this distribution, 107 food parcels were prepared and delivered to 107 disabled people. Each parcel consists of white flour (25kg), rice (10kg), sugar (10kg), cooking oil (1.8L), kidney beans (12 cans), legumes (12 cans).

**2019**

Reported in February 2019, 24 million people – close to 80% of the population in Yemen – need assistance and protection. 14.3 million people are classified as being in acute need, with around 3.2 million requiring treatment for acute malnutrition, that includes two million children under-five, and more than one million pregnant and lactating women.

This number is 27% higher than in the previous year, which explains the scale of distribution we had for Yemen in that year. There were quite a number of distributions done in 2019, namely food aid, meals, water, gas cylinders, blankets, school kits and winter clothes.

**2020**

Covid-19 has worsened the lives of the people of Yemen. In April 2020, during Ramadan, 200 IDP families in Aden were selected and provided with hygiene kits to allow protective measures against COVID-19. Each hygiene kit consists of antiseptic soap (1L), soap package (4 packs), detergent (1kg), washing powder (1kg), wet wipes (2 packs) and towel (1 each). In total, 1,000 Yemenis benefitted from these hygiene kits distribution.

ACTIVITY	QUANTITY	BENEFICIARIES	
Food Parcel Distribution	907 Packs	107 Disabled People 600 Poor Families 200 IDP Families	2017 2019 2020
