OVERVIEW

The second quarter of the year 2020 has seen extraordinary circumstances in the global arena. The world was faced with a coronavirus outbreak that affected communities everywhere.

Governments issued lockdowns which led to never seen before outcomes. People were contracting a highly contagious disease, their movements were restricted, they lost jobs, the world economy was deeply affected.

Despite these troubling circumstances, Muslims still continued to observe their fast in Ramadhan and celebrate Eid.

Through these times, Global Ehsan Relief continued to provide relief and support to vulnerable communities with the help of our international NGO partners.

CARE FOR ORPHANS

Our orphan sponsorship programmes aim to provide a holistic care for the orphans. The aid extends beyond giving basic necessities.

We aim to sponsor 800 orphans this year with hopes of providing them with an education and skills which empower them to be independent once they step into the real world.

Thank you for your trust in us, now we have 484 orphans sponsored up to date. Your donation provides hope and gives these children the ambition and desire to succeed in life and make the most of the opportunities presented to them.

GLOBAL WAKAF PROJECTS

Making a wakaf is a noble act as the wakaf tool benefits the community and generations to come as long as the tool is maintained. What more the individual gains rewards in the Akhirah.

ABLUTION PLACE

The act of giving someone water is highly rewarded in Islam, imagine the reward for giving a gift of an Ablution Place.

We often overlook its significance however making ghusl with contaminated water nullifies our prayers as Muslim.

29 are built in Cambodia. Water being the essential source of livelihood is more difficult to get in less developed countries. Now, clean water is made more accessible to families and communities in Cambodia.

MOSQUE

The people in Toul Srolave Village in Cambodia are now able to pray in congregation in the newly built Wakaf Masjid Yusof Abu Bakar.

Before the establishment, plenty of communities in the province area struggle to find a place to pray. Often, they pray in Masjid or Surau that are about to collapse.

Through your donations, 150 families in the rural area are now able to function as a community.

The Masjid is not only a place for praying, but it's also the center of education, social welfare and dispute settlement.

The new mosque creates opportunity for a community development through reinforcing morality, devotion, knowledge and brotherhood relationship.
